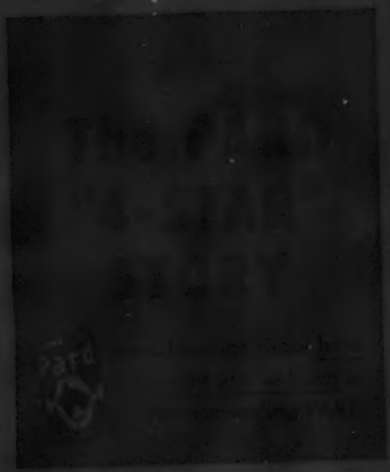
N — 106251 - 108175



Since PARD came on the market in 1932, Swift has consistently made it the *best dog food that science knows how to make.* It is safe to say that no other manufacturer has devoted so much of its facilities, time, and technical personnel to that end.

As a result PARD has always been a standard of comparison for the industry. Today many dog foods claim to be, like PARD, a *complete* food . . . a *balanced* food. They advertise "extra ingredients" which, they say, make their food more nourishing.

It is a question of importance for all concerned with the care and feeding of dogs whether these other foods actually equal PARD. Swift believes that discoverable facts should be presented. Do other dog foods widely sold today meet the standards set by PARD? Can they give the dog—through every stage of life, through lactation and reproduction—*all* the nutrition, in proper balance, that he needs for optimum health and vigor?

The "4-STAR" story suggests an answer in quantitative terms.

It shows that in the four categories of nutrients—Vitamins, Minerals, Protein, Calories—PARD is the only one of the 5 largest selling canned dog foods that *has an optimum score in all!* It shows also that PARD has no surplus of one food factor at the expense of another.

Swift & Company submits the "4-Star" story as factual proof that PARD is now, as it has always been, the *best dog food science knows how to make.*

★ ★ ★ ★

The scores in the table are based on actual amounts. The food scoring highest in a nutrient was given 10. A star indicates adequacy for perfect nutrition, according to standards established after years of research by Swift & Company's scientists and proven beyond doubt by feeding tests on generations of dogs in Swift's kennels.

This study does not reveal differences in *quality* of nutrients which, if demonstrated, would be still *more* in PARD'S favor.

The comparison below is based on an analysis of the five largest-selling canned dog foods. The determinations were conducted by the Laboratory of Vitamin Technology, an independent laboratory.

	Protein	Vitamins	Calories	Minerals	Score
PARD	9.3*	10.0*	8.6*	10.0*	★★★★
Dog Food A	8.3	6.3	9.0*	7.3	★
Dog Food B	9.6*	6.9	10.0*	5.2	★★
Dog Food C	10.0*	8.7	6.8*	4.5	★★
Dog Food D	8.7	4.0	8.6*	5.1	★

The only 4-STAR dog food of all the leading canned brands
